

eLearning can be an important component of an overall **competency initiative**, speeding up the process, improving consistency and helping people be successful.

At DETAC, we understand the importance of making eLearning **engaging and integrated** with an overall approach to deliver results.

Competency Process

Value

Partnering with clients to deliver the best value for **your budget**.

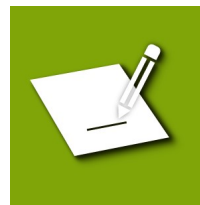

- Engage Stakeholders
- Deliver Results

Technology

Development software that is **easy to update** if your business processes change.

- Hosted on either our Learning Management System or yours.

Design

Focus on **results** by engaging learners from start to finish.

- Practical Scenarios
- Interactive Videos
- Animations
- Simulations
- Testing

About Us

We have **experience in successfully** implementing eLearning as part of complete **competency programs** in a wide variety of organizations and applications.

"Most online courses are kind of boring. With yours I had to make decisions right away and get involved. It was fun and interesting."

Truck Driver
