

Basic Line Locating Tech I (USA)

Outline	Learning Objectives
<p>This one-day program covers the basic principles involved in underground locating, including an overview of the type of problems utility staff regularly encounter and how to solve them. The presentation is generic in nature and does not promote specific makes or models of line locators. The objective is to enlighten utility staff on the increasingly complex functions involved in this important and cost-effective activity. Indeed, a well-informed locator saves time, money and, in some cases, injury.</p>	<ul style="list-style-type: none"> • Explain how electromagnetic fields are created, propagated and detected using simple examples and diagrams. • Illustrate how field distortion can and does result in inaccurate locating and or measurements. • Explain how to reduce or eliminate some of the most common causes and effects of distortion. • Illustrate the importance of selecting the best grounding techniques and most effective frequency for the task at hand. • Explain the differences in the types of faults typically being located and the most effective ways to address each. • Demonstrate, in a field application, direct connect, clamp and induction methods of underground locating.
	<p>Competencies</p> <p>The competencies of this program are tested and measured through 100% participation of the learning objectives. Participants must achieve a minimum 70% pass mark on a written competency exam.</p>

COURSE COSTS (US Funds)

- **For courses held at Client's facility:**

- | | |
|---|--|
| <ul style="list-style-type: none"> <input type="checkbox"/> Approval of Line Locating site <input type="checkbox"/> Instructor's day rate @ \$910.00 per day (including travel days, if applicable, up to 10 hours. After 10 hours rate: \$91.00/hr) <input type="checkbox"/> Book & Certification fee @ \$55.00 per student | <ul style="list-style-type: none"> <input type="checkbox"/> Shipping @ cost (if applicable) <input type="checkbox"/> Airfare, car rental & hotel @ cost + 12% (if required) <input type="checkbox"/> Mileage @ \$0.95 per kilometer <input type="checkbox"/> Subsistence \$75.00 per day including travel days |
