

Outline	Learning Objectives
<p>This one-day program includes theory, tools and knowledge of fall protection to safely work at heights. The course material is energetically delivered and includes hands-on activities, video analysis and focuses on student participation. The certification is valid for 3 years from course date. Government issued photo ID must be presented to the instructor. This program requires a mandatory written theory test (English only). The End User Fall Protection Program (#6116) is developed by Fall Protection Group Inc., a leader in North American Fall Safety. Fall Protection Group Inc. is an OSSA Accredited Fall Protection Training Provider and provides end users with OSSA Accredited certification.</p>	<p>This course includes both theoretical and practical application and testing on the following topics:</p> <ul style="list-style-type: none"> • Fall accident statistics • Dynamics of falling • Fall protection planning • Clearance & free fall calculations • Equipment care and inspection • Rescue principles • Governing bodies and regulation • Fall protection systems • Fall arrest system components • Harness fitting • Suspension trauma
	<p>Competencies</p> <p>The competencies of this program are tested through a knowledge-based examination and through 100% participation in the program. Participants must achieve a minimum pass mark of 80% on a written competency exam. Students who score below 80% must attend another training session in its entirety and successfully complete all aspects of the training to be awarded certification.</p>
