

# Fire Warden Program

Outline	Learning Objectives
<p>This half-day program covers the knowledge and skill a Fire Warden should possess to function in an emergency situation. It can also be enhanced by covering the specific procedures for the client's building.</p>	<ul style="list-style-type: none"> <li>• Understanding basic fire chemistry.</li> <li>• Identifying the importance of fire prevention.</li> <li>• Understanding the classification of fires and fire extinguishers.</li> <li>• Identifying and understanding life safety systems in buildings.</li> <li>• Dealing with human factors and human behaviours in emergency situations.</li> <li>• Roles and responsibilities of the fire warden.</li> <li>• Common fire survival techniques in a fire situation.</li> </ul>
	<p><b>Competencies</b></p> <p>Participants are required to complete a written competency check to minimum 80% level in order to obtain a pass mark. In addition, participants must successfully participate as a member of a team during a practical demonstration of building-specific emergency response simulation.</p>
