

Industrial Rescue

Level IV

Outline	Learning Objectives
<p>This four-day program is aimed at developing rescue team dynamics, with leadership and problem solving the focus. Through a series of practical exercises, participants are placed into each team position and must use the skills developed in Industrial Rescue I, II and III to solve scenario-driven rescue problems. There will be less guidance from the instructors in system development with the absolute focus on safety. The program consists of classroom theory and practical exercises.</p> <p>Prerequisite: Industrial Rescue I, II & III</p>	<ul style="list-style-type: none"> • Ability to use skills developed in Industrial Rescue I, II and III. <hr/> <p>Competencies</p> <p>The objectives to this course are obtained through 100% participation, therefore, the candidate must be physically and mentally able to perform the tasks from an elevated position.</p>
