

Light Hydrocarbons and Hazardous Atmospheres

Outline	Learning Objectives
<p>This half-day program describes the effects and hazards associated with sweet gas exposure in the workplace, with emphasis on controlling and understanding the hazard.</p>	<ul style="list-style-type: none"> • Understand SDS in relation to light hydrocarbons • Characteristics of hydrocarbon gases • Understand auto ignition temperatures • Define common light hydrocarbon gases • Learn effects of oxygen deficient or enriched atmospheres • Understand hydrocarbon narcosis, explosive and health effects of hydrocarbon gases, exposure limits and measurements • Define emergency response strategies • Precautions and hazards associated with natural gas, including NORM • Incident case studies will be explored.
	<h3>Competencies</h3>
	<p>The competencies of this program are tested and measured through 100% participation of the learning objectives. Participants must achieve a minimum pass mark of 70% on a written competency exam.</p>

COURSE COSTS

- **For courses held at Global: \$90.00 per student, OR,**
- **For courses held at your site:**
 - Instructor's day rate @ \$725.00 per day (including travel days, if applicable, up to 10 hours. After 10 hour rate: \$72.50/hr)
