

Open Class Format - Can be used to train along side other companies for learning enrichment, greater flexibility in dates and/or do not have enough personnel to justify a corporate specific SEFSAM.

Upcoming Course Dates: June 5 - 7, 2018

The objective of the SEFSAM program is to provide management and supervisors with the skill, knowledge and desire to lead their workforce in achieving an injury-free environment.

SEFSAM has received rave reviews and overwhelming positive accolades, more importantly we make a measurable difference in the organizations we touch.

Our inspirational facilitators will teach your supervisors and managers how to motivate their workforce to obtain the vision of zero incidents.

This motivating three day (22 hour), 17 module program helps tie together the necessary components of safety into the management scope, and assists the supervisor/manager in facilitating this interaction into their operations. Everything from the basic fundamentals of safety to advanced human factors awareness is covered. Special emphasis is placed on how to create the desire for these changes in the workplace.
